# FLY, -N'-HI

May '09 takeoffs and landings with volunteer Pilots & Evangelists with Australia's Outback Patrol

**"BEYOND THE  
PAROO WHERE  
THE CHURCHES  
ARE FEW"**

Banjo Patterson wrote these words in a 1900's poem. That was a day when there were more churches there. But not so many any more.

**"Things have faded and passed away in time like most of the rest,  
While we continue to search for a good old fashioned Church,  
a place to hear of the Love of Christ,  
and learn follow Him,  
Way out here in the Australian West."**

To avoid extinction, **Outback Patrol** church people must help place another padre-evangelist permanently inland to expand the Gospel work. Pray in the right man for the job, and work for and pray in the funds to send him.

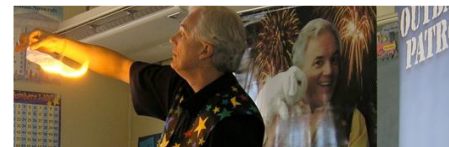

## OUTBACK TARGET

**THIS MAN BRINGS CHRIST TO HUNDREDS OF FAMILIES**

Mr. **Gary Jackel** and pilot **Barry Small** completed half of a dizzying volunteer **Patrol** that took them to remote schools before the plane broke down at Charleville. They missed evening functions. Was first patrol after the monsoon floods washed down the Diamantina and Channel country and closed roads. They reached many isolated families. Share your gratitude to God that **His Word** was not bound by distance or weather, just delayed by a temporary mechanical repair. We are grateful for your prayer, and for your gifts that helped them do it. [Acts 28:28](#)

They return inland shortly with Quizworx and GoodNews to continue the mission ... then, Julian, the Gumnut Puppets and the Jungle Jam band ...
